

Nowicki Bowl Cutters KN-collection

The KN-Series cutters from Nowicki are the bowl cutters in our range. The KN-Series is available from a capacity of 60 to 550 litres. Cutters are used for cutting, reducing and mixing both fresh and frozen raw materials into a bound/homogenous mass. Havantec's specialists will gladly support you in choosing the right accessories.

By means of touch screen various programmes can be preset in order to always achieve a constant product result. Among other things, the blade speed and the bowl speed can be determined.

The KN series from Nowicki

1. Push button control
2. Easy to maintain
3. Soundproof finish
4. Equipped with NORD motors
5. Custom made? No problem at all. In consultation with the customer and Nowicki, the cutter can be executed completely according to the customer's wishes.

Optionally available with (depending on version)

1. Ejector
2. Touch screen control and joystick
3. Standard truck lift
4. Extra knives
5. Water dosing system

Are you looking for the right solution for your production process?
Havantec's specialists will gladly think along with you!
